EDUCATION

Bachelor of Science, Data Science Sep 2025- Apr 2028
Concentration: Mathematics University of Calgary

QUALIFICATIONS & CERTIFICATIONS

Microsoft Data Visualization Coursera|2025
- *Certifications: [Certification link]* Microsoft PowerBI|Dashboard|Data Visualization

Google Data Analytics Coursera|2024
- *Certifications: [Certification link]* Data Analysis Process|Spreadsheet|SQL|R|Tableau

PROJECTS

FIFA WORLD CUP 2022 TOURNAMENT MANAGEMENT SYSTEM Sep 2026 - Present
Interactive FIFA World Cup 2022 Tracking Application Java|JavaFX|OOP
GitHub: *[Project link]*

- Developed Java-based desktop application with an interactive JavaFX GUI to manage FIFA teams, players and their information.
- Implemented create, view, update and delete operations, search functionality and statistical calculation.
- Applied OOP principles and ultilize ArrayList and HashMap to efficiently store, retrieve and update data.
- Implemented CSV import and export functionality to enable data persistence and management.

SLEEP QUALITY ANALYSIS USING EXCEL AND TABLEAU May 2026 - Jun 2026
Lifestyle Factors Affecting Sleep Quality Excel|Data Visualization (Tableau, PPT)|Qualtric|EDA
Link*: [Report link]*

- Cleaned and prepared the dataset in Microsoft Excel by correcting inconsistencies and standardizing data formats.
- Developed interactive visualizations in Tableau to identify trends and relationships between sleep quality and lifestyle factors.
- Analyzed the data to generate insights into the impact of lifestyle on sleep quality.

QUALITATIVE ANALYSIS OF MACHINE LEARNING SYSTEM Jan 2026 - Apr 2026
Sleep Disorder Prediction Python|Machine Learning|Data & Statistical Analysis
GitHub*: [Project link][Report link]*

- Developed a scikit-learn preprocessing pipeline to prepare data for model training.
- Built and compared multiple models: Logistic Regression, Decision Tree, Random Forest and KNN.
- Evaluated and compare model performance using accuracy, precision, recall, f1-score and confusion matrices.

FIFA WORLD CUP 2022 TOURNAMENT MANAGEMENT SYSTEM Jan 2026 - Apr 2026
Interactive FIFA World Cup 2022 Tracking Application Java|JavaFX|OOP
GitHub: *[Project link]*

- Developed Java-based desktop application with an interactive JavaFX GUI to manage FIFA teams, players and their information.
- Implemented create, view, update and delete operations, search functionality and statistical calculation.
- Applied OOP principles and ultilize ArrayList and HashMap to efficiently store, retrieve and update data.
- Implemented CSV import and export functionality to enable data persistence and management.

CALGARY TRAFFIC & INFRASTRUCTURE SQL ANALYTICS Sep 2026 - Present
Calgary Urban Mobility & Detour Impact Analysis SQL|Jupiter Notebook

- Built Python and SQL cleaning pipelines leveraging database engines to normalize text, timestamps, and null values for database ingestion.
- Analyzed spatial-temporal urban infrastructure bottlenecks by querying relational tables across multiple city quadrants to evaluate traffic disruption patterns.
- Engineered advanced SQL queries combining GROUP BY, CASE WHEN, LIKE, and COUNT functions to categorize and quantify construction disruptions (e.g., lane closures vs. full road closures) across City of Calgary open datasets.

WORK EXPERIENCE

UNIVERSITY OF CALGARY | BIRTHDAY WISHES UOFC Calgary, Alberta, Canada
VP Marketing & Social Media Sep 2026-Present

- Created, designed, and managed social media content and graphics, including recurring Birthday Wishes posts.
- Coordinated with the marketing team to maintain visual style consistency and adhere to scheduled posting timelines.
- Initiated outreach & communicated with partner clubs to plan & negotiate & execute joint events and cross-promotional campaigns.

YOUTUBE Remote
Content creator | is.anneee Nov 2023 - Present

- Created engaging videos about student life and travel experience.
- Experience with Capcut and Canva to produce engaging videos and visual contents.
- Manage personal channel including posting schedule and filming.

PARIS BAGUETTE VIETNAM Ho Chi Minh City, Vietnam
Sale associate (full-time) Aug 2023 - Nov 2023

- Delivered exceptional customer service by assisting customers with product recommendations and promotional offers.
- Operate POS system to handle transactions and cash management.
- Proficient in operating espresso machines and blenders to craft high-quality coffee and beverages
- Maintained bakery product displays and packaging, ensure freshness, accuracy labels.
- Manage stocks and replenished inventory to support daily operation.

ACHIEVEMENTS

International Outbound Mobility Bursaries - Douglas College Apr 2025- Aug 2026

- *Awarded a $7,000 to fund a semester exchange program at Rikkyo University in Tokyo, Japan.*

AP Calculus AB 2023

- Score: 5/5

TECHNICAL SKILLS

LANGUAGES

- Python (NumPy, SciPy, Pandas, Scikit-learn), Java, SQL, R

TOOLS

- Git, PyCharm, IntelliJ, Microsoft Office, Tableau, Qualtrics, R Studio, SQLite, Jupyter Notebooks
- Canva, Adobe (Photoshop, Illustrator, Premiere), Capcut, Youtube Studio

DATA WRANGLING

- Scikit-learn preprocessing pipeline
- **Data cleaning:** Handling missing, null value, duplicates

MACHINE LEARNING & EVALUATION

- **Machine learning:** Linear/Logistic Regression, Decision Trees, Random Forests, KNN
- **Model Evaluation & Validation:** Cross-validation, Precision, Recall, F1-Score, ROC-AUC, and hyperparameter tuning.

DATA VISUALIZATION & COMMUNICATION

- **BI Tools:** Tableau, Power BI
- **Python Libraries:** Matplotlib

STATISTICAL METHODS

- A/B Testing, Hypothesis Testing (t-tests, Chi-Square), Bootstrap Methods, Confidence Intervals, Maximum Likelihood Estimation (MLE), Regression Analysis.
