# Brian Chhan

**3rd Year Computer Science Student | University of Calgary**
Calgary, AB | +1 403-862-0901| brianjchan15@gmail.com
LinkedIn: www.linkedin.com/in/brianchhan15 | GitHub: https://csgit.ucalgary.ca/brian.chhan

## EDUCATION

**Bachelor of Science in Computer Science**
*University of Calgary*, Calgary, AB
Expected Graduation: May 2028
**GPA:** 3.60/4.00
**Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence

## TECHNICAL SKILLS

**Languages:** Python, Java, C, JavaScript, SQL, ARMv8
**Frameworks/Libraries:** JavaFX, React, Django
**Databases:** MySQL
**Tools:** Capcut, Davinci Resolve, Git, VS Code, PyCharm, Intellij, Voicemeeter
**Hardware:** Custom PC Assembly, Laptop Hardware Replacement, Game Controller Repair & Troubleshooting
**Concepts:** Data Structures & Algorithms, OOP, GUI Development, Unit Testing

## PROJECTS

**Multiplayer Gamehub (Frontend)** | GitLab
*Java, JavaFX, FXML, SceneBuilder, Maven* | 2026

- Developed interactive JavaFX GUI screens for a multiplayer game platform, including host/join lobby, matchmaking room, and game result popups.
- Designed and implemented user interfaces using FXML and SceneBuilder, creating consistent layouts and navigation across application screens.
- Built matchmaking interfaces to support users entering multiplayer lobbies and accessing available games.
- Collaborated with a development team using Git and GitHub to manage code changes and integrate UI components into the project.

**Valorant Esports Statistics Tracker** | GitLab
*Java, Object-Oriented Programming, Java Collections Framework* | 2025

- Developed an interactive, menu-driven Java application to manage Valorant esports player profiles, team rosters, and performance statistics.
- Implemented data management and retrieval using HashMaps and ArrayLists to store player information, team compositions, and statistics including ACS, ADR, kills, assists, and deaths.
- Designed ranking and filtering algorithms to identify top-performing players, filter players by nationality and age, and recommend optimal five-player teams based on ACS.
- Built an interactive menu system allowing outputs to enable users to add and update player records, manage teams, and query statistical leaderboards.

**Robot Escape — Python Puzzle Game**
*Python · Object-Oriented Programming · File I/O · Game Logic* | Dec 2024

- Developed a grid-based puzzle game in Python in which players coordinate multiple robots to navigate a maze and reach an exit while avoiding obstacles.
- Implemented object-oriented game logic to manage robot movement, collision detection, escape conditions, and game-state tracking.

- Built file-handling functionality to load maze layouts, robot positions, and exit locations, with exception handling for missing or unreadable files.
- Implemented save/load functionality to preserve and restore game states, including robot positions and move counts.

# EXPERIENCE

### IT Support Assistant

*EC Accounting & Tax Services*, Calgary, AB | Sept 2024 – Present

- Troubleshoot hardware, software, and technical issues to support day-to-day business operations.
- Install, configure, and maintain computer systems, applications, and peripherals to ensure reliable functionality.
- Provide technical support to business users by diagnosing problems, implementing solutions, and explaining technical procedures.
- Assist with routine system maintenance and resolve technical issues to minimize disruptions to business activities.

### Elementary Piano Teacher

*Dynamic Music Studio*, Calgary, AB | Sept 2024 – Present

- Teach elementary piano students fundamental music theory, note reading, rhythm, and piano techniques through structured lessons.
- Adapt lesson plans and teaching strategies to accommodate individual learning styles, skill levels, and student progress.
- Develop communication, patience, and problem-solving skills by providing constructive feedback, and encouraging practice habits, helping students to overcome learning challenges.

### Personal Computer Building & IT Support

*Independent Technical Experience* | Calgary, AB

- Assembled and upgraded desktop computers for friends and family, selecting compatible hardware components based on user needs and budget.
- Diagnosed and troubleshot hardware and software issues, performing repairs and replacing components when necessary.
- Installed and configured operating systems, drivers, and essential software to ensure systems were functional and ready for use.

# LEADERSHIP & ACTIVITIES

### Calgary Esports United Collegiate Valorant Team — Member

*University of Calgary* | 2025 – 2026

- Competed in local and online Valorant tournaments against collegiate teams across Canada.
- Achieved a Top 16 finish in the UBCEA Valorant Cascadia Cup.
- Collaborated with teammates to develop team strategies, coordinate in-game execution, and adapt to opponents during competitive matches.

# ACHIEVEMENTS

- UofC Dean's List 2025–2026
- Jason Lang Scholarship 2025, 2026
- Alexander Rutherford Scholarship 2024
- RCM Level 10 Honours - Piano & Harmony; History - First Class Distinction With Honours

# ADDITIONAL INFORMATION

**Interests:** Artificial Intelligence, Culinary, Cybersecurity, Esports, Investing, PC Assembly, Piano
**Languages:** English, Cantonese, Japanese
